To provide you with flexibility, we offer a variety of solutions and purchase options.

Descriptions

Advisor Series⁴: For clients seeking investment advice and purchasing under a front-end load, back-end load, low-load or low-load 2 option.

F-Series: Investors participating in programs that usually do not require the payment of sales or redemption transaction charges by investors or payment of service fees by TD Asset Management Inc. (“TDAM”). Potential investors may include clients of “fee-for-service” Financial Advisors, clients with dealer-sponsored “wrap accounts”, and others who pay an annual fee to their dealer instead of transactional sales charges.

T5, T8 Series⁴: Investors who seek to receive a regular monthly cash flow from a Fund, while seeking investment advice, and want the option of transacting on a front-end load, back-end load, low-load or low-load-2 basis. Monthly distributions may consist of net income, net realized capital gains and/or a return of capital. The target annualized distribution rate for the T5 Series is 5% and the target annualized distribution rate for the T8 Series is 8%. These distribution rates are based on the Series net asset value per Security at the end of the previous calendar year. TDAM may change the target annualized distribution rate at any time.

FT5, FT8 Series: Investors who seek to receive a regular monthly cash flow from a Fund, while participating in programs that usually do not require the payment of sales or redemption transaction charges by investors, or payment of service fees by TDAM. Monthly distributions may consist of net income, net realized capital gains and/or a return of capital. The target annualized distribution rate for the FT5 Series is 5% and the target annualized distribution rate for the FT8 Series is 8%. These distribution rates are based on the Series net asset value per Security at the end of the previous calendar year. TDAM may change the target annualized distribution rate at any time. Potential investors may include clients of “fee-for-service” Financial Advisors, clients with dealer-sponsored “wrap accounts”, and others who pay an annual fee to their dealer instead of transactional sales charges.

Premium Series: For large investors and others who make the required minimum investment, as determined by TDAM from time to time.

Premium F-Series: For large investors participating in programs that usually do not require the payment of sales or redemption transaction charges by investors or payment of service fees by TDAM and who meet

the minimum investment requirement, as determined by TDAM from time to time. Potential investors include clients of “fee-for-service” Financial Advisors, client with dealer-sponsored “wrap accounts”, and others who pay an annual fee to their dealer instead of transactional sales charges.

K-Series: Large investors and others who make the required minimum investment, as determined by TDAM from time to time who wish to receive a regular monthly cash flow from a Fund. Distributions will consist of net income, net realized capital gains and/or a return of capital monthly.

PS-Series: Large investors who wish to receive a regular monthly cash flow from a Fund, while participating in programs that usually do not require the payment of sales or redemption transaction charges by investors or payment of service fees by TDAM and who meet the minimum investment requirement, as determined by TDAM from time to time. Monthly distributions may consist of net income, net realized capital gains and/or a return of capital. ¹Target distribution rates are based on Net Asset Value (NAV) per unit (PU) for the Fund(s). The target distribution rates will change with the changes in the series NAVPU or monthly distribution per unit. This is a target distribution only, is not guaranteed, may be adjusted from time to time without notice and is not a prediction of future distributions. ²Effective March 28, 2017 the fund series were closed to purchases by new investors. ³Effective March 28, 2017 the fund series were closed to all purchases. ⁴Effective on or about November 1, 2019, the Deferred Sales Charge (Back-load) (DSC), low-load (LSC) and low-load-2 (LSC2) purchase options of Advisor Series, T5 Series and T8 Series securities of TD Mutual Funds and TD Managed Assets Program portfolios will be closed to all purchases by investors, including purchases made through Pre-Authorized Contribution Plans. Existing unitholders may still hold or redeem their securities of the Capped Funds and/or back-end load options of impacted funds. Existing unitholders may also switch into a different fund of the same deferred sales charge option. The most recent actual monthly distributions per unit are available on the TD Asset Management Inc.'s website at tdassetmanagement.com. The payment of distributions should not be confused with a fund's performance, rate of return or yield. If a distribution paid by a fund is greater than the performance of the fund, the difference will be deducted from your invested capital. Capital gains taxes deferred will be payable when the units of a fund are sold or to some extent when their adjusted cost basis goes to zero. Returns of capital (ROC) distributions do not constitute part of a fund's rate of return or yield. ROC reduces the adjusted cost base of the units to which it relates. Please read the fund facts and prospectus, which contains detailed investment information, before investing. Mutual funds are not guaranteed or insured, their values change frequently and past performance may not be repeated. TD Mutual Funds and the TD Managed Assets Program Portfolios (collectively, the "Funds") are managed by TD Asset Management Inc., a wholly-owned subsidiary of The Toronto-Dominion Bank and are available through authorized dealers. "Forward-looking" statements ("FLS") are based on current expectations and projections about future economic, political and relevant market factors in each case assuming no changes to applicable tax or other laws or government regulation. Certain statements in the target annual distribution rates above may constitute FLS, which involve known and unknown risks, uncertainties, and other factors that may cause actual results, performance, or achievements of the various TD Mutual Funds to be materially different from any future results, performance, or achievements expressed or implied by such FLS. Specifically, this document contains information about the target annual distribution rates for the funds specified above. Please note that the target annual distribution rates are targets only and are subject to inherent risks and uncertainties. A variety of factors, many of which are beyond TDAM's control, could cause actual annual distribution rates to differ materially from the target annual distribution rates. These factors include the level of redemptions experienced by a fund, the magnitude of the gains and losses realized by a fund, the amount of dividend and interest income received by a fund, and the unrealized investment gain or loss of the fund as at the fund's record date, as well as normal market conditions and trading patterns, all of which could affect a fund's NAVPU or monthly distribution/ unit. This list is not exhaustive of the factors that may affect any of the target annual distribution rates. These and other factors should be considered carefully and readers should not place undue reliance on the target annual distribution rates. Therefore, the monthly distribution/unit may be materially higher or lower than those set out above. The target annual distribution rates are based on currently available information. Although TDAM may provide target annual distribution rates for a fund, TDAM does not guarantee the amount that the fund will make in monthly distributions/unit. TDAM does not undertake to update target annual distribution rates.
